amineouklilane

SUMMARY

Dedicated Electrical Engineer with a strong academic foundation (15+/20) and hands-on experience in industrial automation and Industry 4.0. I specialize in designing control architectures and optimizing system efficiency through PLC programming and smart technology integration.

SKILLS

Embedded Systems — Proficient
Microcontroller Programming (C/C++, Python)

Industrial Automation & IoT — Proficient
PLC Programming & HMI Design (TIA Portal)

Electrical design Systems & Control(Matlab,Simulink,etc..) — Proficient
Schematic Design, Modeling, Simulation & PID Regulation

Analytical Thinking — Expert
Troubleshooting & Industrial Fault Analysis

EDUCATION

10/2025 – Present
Casablanca,Morocco

Bachelor in Electronic Engineering, Automation, Control & AI, *ESTC Casablanca*

2023 – 07/2026
Casablanca,Morocco

Associate Degree in Electrical Engineering (DUT), *ESTC Casablanca*

Completed 2023
Casablanca,Morocco

High school Diploma, *AL KHAWARIZMY High School*

PROFESSIONAL EXPERIENCE

04/2026 – Present
CasablancaMorocco

L.A.P(Label d'assemblage Et de Production) , *Engineer Role Intern*
Study of an Automated Assembly System

06/2025 – 08/2025
Casablanca, Morocco

SEVAM (Glass Manufacturing) , *PFE Intern (Industrial Automation)*
Automated a vibrating hopper system using **Siemens S7-300 PLC** and Designed full electrical schematics

06/2024 – 07/2024
Casablanca, Morocco

ECCBC (Equatorial Coca-Cola) , *Industrial Intern (Energy Efficiency)*
Automated industrial heating systems to optimize thermal energy consumption.

PROJECTS

01/2026 – 03/2026

Conveyor Belt Object Detector
Achieved reliable object detection and stable sorting behavior

11/2025 – 01/2026

Intelligent Sequential Car Wash System
Developed a 4-station automated system using **ESP32**

12/2024 – 03/2025

Safety Sensing & Gas Detection IoT Platform
Built a real-time environmental monitoring platform

LANGUAGES

Arabic — Native/Bilingual

French — Proficient

English — Proficient
